Dear Gary:

Alison and I were delighted to receive the photographs of the Unicorn party from Patricia and yourself, and to remember again a happy time and place.

I was also very touched by the thought you expressed in the album. It has been a monumental affair, this exposition, and few believed it possible. You were one of a handful of people who were prepared to give it a fighting chance. You were the only member of the media that I can recall who saw at the beginning what the likely outcome would be, and forecast it with precision and hope.

For all this you deserve more than a word of thanks. I send you a Gordon Smith print, to recognize a great effort on behalf of the 1986 World Exposition.

With kindest personal regards,

Yours sincerely,

Patrick Reid
Ambassador and
Commissioner General
